

Materials:

Street name signs for local streets with speeds of 25 mph or less shall be 6" in height minimum, 0.100" gauge Flat Alodine Finish Aluminum. The minimum length shall be 24" and maximum length shall be 36". Both sides of street name signs shall be 3M #1177 transparent green overlay film on white #3930 sheeting. Lettering shall be 4" high upper case and 3.5" lower case.

Street name signs for all other streets shall be 8" in height with 6" high upper case and 4.5" lower case lettering.

Street and Traffic Signs shall have a Hi-Intensity Prismatic Finish meeting ASTM D4956 Spec Type 4 Standards.

Lettering:

All letters and numbers used to fabricate a street name sign shall be High Intensity White using 3M #3930 white sheeting. The actual name of the street is a Series 'b' with lettering heights as specified above.

Installation:

Mounting hardware shall be style #850 Long (5.25") Aluminum Caps/Tees. See Drawing No. R-1250.

Detail Drawing may not be altered or changed in any manner except by the Public Works Director. It is the responsibility of the user to acquire the most current version.
