March 1, 2017

Oregon Department of Transportation
Attn: Director, Matthew Garrett
355 Capitol Street NE, MS 11
Salem, OR 97301-3871

RE: Oregon State Highway 211(Main Street), Molalla

Dear Mr. Garrett,

Please accept this joint letter from the City of Molalla City Council and the Molalla River School District Board of Directors as a unified request for the Oregon Department of Transportation to move forward on important safety issues in our community.

First, there is a potentially grave issue for children along Highway 211 (Main Street) near the intersection of Hezzie Lane with regard to pedestrian safety. With 300 Apartment units and additional development pending we fear that children walking to and from the schools only one block away will be in danger of crossing a highway unprotected. This is our formal request of you to take action to assure children and families' safety.

Secondly, the City has recently asked for no parking signs in front of Stone Place Apartments to improve sight distance and have received no response. Site distance and safety for pedestrians and bicyclists will improve with these formal parking restrictions.

Finally, we believe that the traffic speed in this area should be lowered. The City's Public Works Director will be submitting a request to the State Traffic Engineer.

These issues regarding pedestrian and bicycle safety are of high importance to this community, especially when it involves the safety of children. If you have questions or need clarification please contact Molalla City Manager, Dan Huff or Molalla River School District Superintendent, Tony Mann.

Sincerely,

Jimmy Thompson, Mayor

Calvin Nunn, MRSD Board Chair
