Subject: Predesign review

Mike/Tim, I've been asked to check in with you on when you might have official review for us on the Predesign Report submitted in December. The Engineer had six weeks scheduled on the critical path for that review since that's what the MAO documents say Molalla should expect. Could you let me know if there is anything more you need? I realize that timeline is aggressive.

Thanks very much!

Andy,

Please take a moment and fill out his form as your I/I report? It is much more informative. In the future, use the form as well.

Thanks,
