

## Social Media Campaign: Keeping Flushable Wipes and Other Items Out of the Toilet

### Version 1

Use your potty words to help our community's sewer system! Remember, only the 3 Ps belong in the toilet: Pee, Poo and Toilet Paper.

"Flushable" wipes belong in the garbage. They can clog up your pipes and cause sewage to back up into your house – yuck! They also clog up our community's sewer system making sewer service more expensive for everyone.
